1 Microstructures on the Terminal

1.1 select

- micro (returns a random node)

- micro any 10 (returns 10 random node)

- micro planets 8 (returns 8 random nodes from micro structure planets)

1.2 new

- sudo micro new chaos; (creates micro structure chaos)

1.3 drop

- sudo micro drop chaos; (deletes micro structure chaos)

1.4 List top nodes

perl -MAI::MicroStructure -le 'print for AI::MicroStructure-¿themes;'
